Summary

Detail-oriented Accounts Payable professional with 2+ years of experience in invoice processing, vendor management, and financial operations. Skilled in handling high-volume transactions, resolving discrepancies, ensuring compliance with organizational policies, and meeting SLA timelines. Strong ability to collaborate with cross-functional teams, support month-end activities, and drive process improvements to enhance operational efficiency and accuracy.

Work Experience

Accenture, Bangalore

Procure-to-Pay Operations Associate September 2024 - Present

- Processed high volumes of supplier invoices with accuracy while consistently meeting defined SLA and turnaround timelines.
- Performed 2-way and 3-way invoice matching against Purchase Orders (POs) and goods receipt records using Receiving Log Management (RLM) tools.
- Verified invoice details, including vendor information, payment terms and accounting codes to ensure compliance and accuracy.
- Investigated and resolved invoice discrepancies, pricing variances, and processing exceptions through collaboration with procurement teams, vendors, and internal stakeholders.
- Maintained vendor master data integrity and provided timely resolution to vendor inquiries and payment-related issues.
- Processed PO invoices, credit notes, and debit notes in accordance with organizational policies and procedures.
- Monitored invoice aging reports and prioritized critical payments to ensure adherence to contractual obligations, including Supply Chain Vendor (MUFG) and Intercompany (IC) invoices.
- Supported month-end and year-end financial closing activities through timely and accurate invoice processing.
- Maintained comprehensive documentation and audit-ready records for all invoice transactions.
- Generated operational reports, including SLA and invoice processing metrics, to support performance monitoring and continuous improvement initiatives.
- Contributed to process improvement initiatives focused on enhancing operational efficiency, accuracy, compliance, and service delivery.
